EDUCATION

Northeastern University Graphic Design BFA 2016
Design: Info Design 2, Branding & Identity, Typography 2
Computer Science: Algorithms, Object Oriented Design

SKILLS

Javascript/Typescript Product Management
NextJS Tech Education
WebML, LLM's UI/UX Design

WORK EXPERIENCE

Element Finance - Product Designer 2022

Designed UI/UX for their DeFi dapp. Designed marketing materials, presentation, brand identity.

Tracer DAO - UI Designer - 2022

Designed an interactive smart contract config UI for a DeFi financial derivatives platform.

GradGuard - Director of Digital Strategy, Front-end Developer, Designer 2019 - 2021

Led an initiative to refactor our entire company tech infrastructure. Designed multiple web-applications. Developed front-end code using vue.js, chart.js, node.js, Laravel. Managed our Facebook ads campaign and Google Analytics.

Secured Finance UI Designer 2021

A platform for decentralized and institutional financial services. I designed their new website including a trading terminal, marginal swap and data tables.

Mosaic Product Manager, UI/UX Designer 2018 - 2020

Responsible for managing our product UI/UX (institutional cryptoasset web terminal), web application development, data vis design/development, material design, and brand identity.

Edgewise Networks Front-End Engineer 2017

A cybersecurity startup in Burlington, MA. I developed a deeply interactive network data-visualization using Node.js, D3.js, and Angular 2.

Apple Software Engineering Intern 2016

Researched, designed, prototyped, and developed multiple versions of a customizable data-visualization focused web application.

Harvard i-lab: ACEA Software Designer 2015

Responsibilities included designing and developing the iOS app, website user interface, typographic design, company culture design & branding.

IBM Design Software Design Co-op 2015

Collaborated with interns & studio members to research, design, and present a solution that effectively solved user pain-points discovered by our research. The final design was an iOS app prototype.

ENTREPRENEURSHIP

Starmorph.AI 2023

Created and am leading a LLM and Web-Development Agency with more than 50+ web-applications developed, 10,000 followers, 650,000+ views on youtube, and 100,000+ LLM queries served to visitors and clients. Achieved 26 SEO ranking.

Starchain Quest 2021

Developed a decentralized app and brand identity for a sci-fi fantasy universe with artistically sound fantasy archetypes. Minted 10,000 Sci-fi NFTs, \$1M+ in sales.
